Greg Piper Welcomes New Housing for Toronto

Greg Piper, Member for Lake Macquarie, is pleased with the completion of a new public housing project at Milford St Toronto. The development, containing five “Seniors Living” dwellings, was funded through the Commonwealth Government’s Nation Building Economic Stimulus Plan.

According to Mr Piper, the new social housing development was under way when the stimulus package was announced and the timing allowed it to benefit from the Federal funding.

This project was built for Compass Housing Services, which operates in Lake Macquarie, Newcastle and other areas.

“These new Seniors Living units are greatly needed in Toronto,” Mr Piper said. I’m pleased to see the project finished and welcome the new residents.”

“Compass Housing has done a great job and these units suit the neighbourhood.”

According to Mr Piper the five new dwellings will provide housing relief to seniors and local residents with disabilities who are in ‘housing stress’ and qualify for social housing.
